```
The World Wide Web project
                                WORLD WIDE WEB
The WorldWideWeb (W3) is a wide-area hypermedia[1] information retrieval
initiative aiming to give universal access to a large universe of documents.
Everything there is online about W3 is linked directly or indirectly to this
       What's out there?[7]Pointers to the world's online information,
                          subjects[8] , W3 servers[9], etc.
      Help[10]
      Software
                          A list of W3 project components and their current
      Products[11]
       Technical[19]
                          Details of protocols, formats, program internals
